In our college, a mentoring system exists for establishing a better and effective relationship between student and teacher and also to continuously monitor, counsel and guide students in educational and personal matters. All teachers work as mentors for students allotted to them. This is a continuous process till the end of the academic career of a student. The aim of student mentorship is – 1. To enhance teacher –student relationships. 2. To enhance student’s academic performance and attendance. 3. To monitor the student’s regularity and discipline. 4. To enable the parents to know about the performance of regularity of wards. The IQAC had taken the initiative of implementing the mentoring of students. Based on their streams and the availability of teachers, students are divided into groups of around 100. 100 students are mentored by 1 mentor. Mentors are expected to offer guidance and counseling as and when they are required. It is the practice of mentors to meet students individually or in groups. In isolated cases parents are called for counseling and their special meeting with the principal at the suggestion of the mentor. If a student is identified as having weakness in a particular subject, it is the duty of the mentor to apprise the concerned subject teacher. Though the system has only been implemented in the last few years, significant improvement in the teacher – student relationship is observed. ‘Remedial Classes’ on identified topics are arranged in each department by the heads on the recommendations of the mentors. Type of mentoring done in our institution are 1. Professional Guidance – Regarding professional goals, selection of career and higher education. 2.
